

Down Syndrome Federation of India

My warmest greetings to everyone!

It is an honor for me to be the patron of ALAN T21 Welfare Trust run by Ms. Rincy Joseph.

Persons with Down syndrome are also people like you and me who are aware of their needs and desires. Everyone just needs to understand this important fact if we are to build an inclusive society. We are really glad that Ms. Rincy Joseph through her trust is trying to spread the good word and create awareness about it. It is important that in India, where awareness is so low, we need to ensure that information is passed down to the very grassroots. Through her trust, Ms. Joseph is trying to do this very thing and it is really a laudable effort.

I wish her and her trust good luck for all her endeavors. Through her hard work and dedication, I am sure she will spread the word and help more and more people become aware of this and accept persons with Down syndrome as one of us.

Warm Regards,

Dr. Surekha Ramachandran,
President – Down Syndrome International
President – Down Syndrome Federation of India
