

16/11/2015

Greetings to All,

It's a great privilege and honor for me to be the trust ambassador of ALAN T21 Welfare trust, established with the motto of ' Together For An Inclusive Tomorrow'.

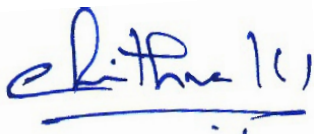

Differently gifted individuals are a 'blessing' for our society rather than a 'liability' and it is high time that our society needs to understand this fact and accept and include such individuals. Persons with Down syndrome are so loving & trainable that if given the best support and care they can reach a life close to normal.

I extend all my support & well wishes to the founder of this trust **Ms Rincy Joseph** & all the other members for this great initiative of social commitment which will bring light to several children and families around the globe.

I am sure that ALAN T21 trust will bring a change in the life's of individual's born with Trisomy 21.

Best Wishes

Sincerely Yours

Dr.Chithra K S

(Padmasri Awarded by the President of India)
